1. Mr. Walsh noted that Senator Javits had requested FBIS materials on the Ramsey Clark visit to Hanoi in 1972. The materials are in the public domain and the Director felt there was no recourse but to comply with the request, which came through the Library of Congress. The Agency stipulated, however, that Ramsey Clark be informed of the request.

2. Mr. Seidman, the Assistant to the President for Economic Affairs, has been put on distribution for the Daily and for the OER Weeklies. Mr. Colby has also agreed to send Secretary Weinberger the EIW. In an effort to reduce leaks, the number of copies of the IOD sent to the Federal Energy Office will be cut from sixteen to three.

3. Mr. Colby was given the SAFE report on Wednesday. Mr. Walsh asked members of the Executive Council to convene on Monday, 21 October, to discuss SAFE.

4. Mr. Lehman reported on the second meeting of the USIB Working Group on the Bulletin. DIA representatives agreed tentatively to the proposals that articles have author and Agency attribution and that a military supplement be introduced.

5. The DCI has asked the IC Staff to study the NODIS and "STADIS" problem in terms of its effect on our product. [REDACTED] will conduct the study.
